

LMU Munich - Faculty of Biology Keynote Seminar Series

2017 - 2018

Fridays at 12.00
Large lecture hall
of the Biozentrum
[room B00.019]

3 November 2017

Geraldine Seydoux

HHMI & Johns Hopkins University, USA
*Are RNA granules liquid organelles?
Regulation of RNA granule dynamics by
intrinsically-disordered proteins*

15 December 2017

Andreas Ladurner

Biomedical Center Munich, Germany
*The third nucleic acid – how poly-ADP-ribose
regulates chromatin structure and function*

2 February 2018

Olivier Hamant

Ecole Normale Supérieure, Lyon, France
Mechanical signals in morphogenesis

16 March 2018

Ned Friedman

Harvard University, USA
*Sibling cooperation and interparental conflict
in a seed: how plant mothers, fathers, and
siblings behave during the act of reproduction
in flowering plants*

20 April 2018

Julia Fischer

Deutsches Primatenzentrum, Göttingen,
Germany

*Guinea baboons as a test case for studying
the link between social systems,
communication and cognition*

18 May 2018

Corné Pieterse

Utrecht University
The root microbiome and plant health

22 June 2018

Matthew Leibold

University of Texas, USA
Rethinking metacommunity ecology
